Ranked fishing
activity by
combined
fishing effort and
total landings
value

Combined biotic
and abiotic
important habitat

DRAFT

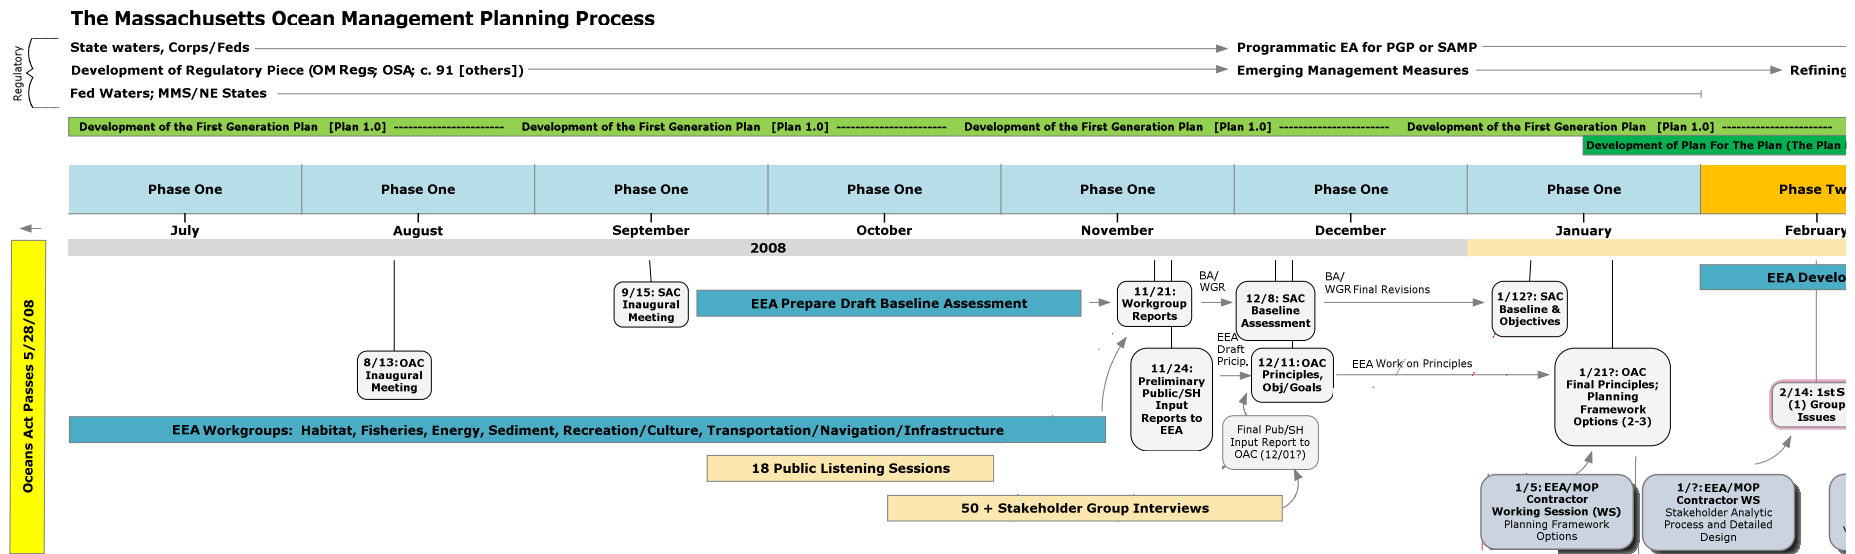

— Ocean Management Planning Area
— Limited
— Low
— Medium
— High

The datum for this map is the North American Datum 1983 (NAD83).
The data are registered to the Massachusetts State Plane Coordinate System,
Mainland Zone (Fipszone 2001). Units are meters.
0 2 4 8 12 16 Nautical Miles

Ranked suitability of sediment resources for beach nourishment

Now until Step 2:

Review all materials – public comment/SH reports, workgroup reports, EBM Science Tools report, Plan Framework alternative recommendations

Develop goals and objectives

Develop/determine what our plan framework will be

Step 1

Data; Input; Planning Framework

Step 2

Draft Plans

Step 3

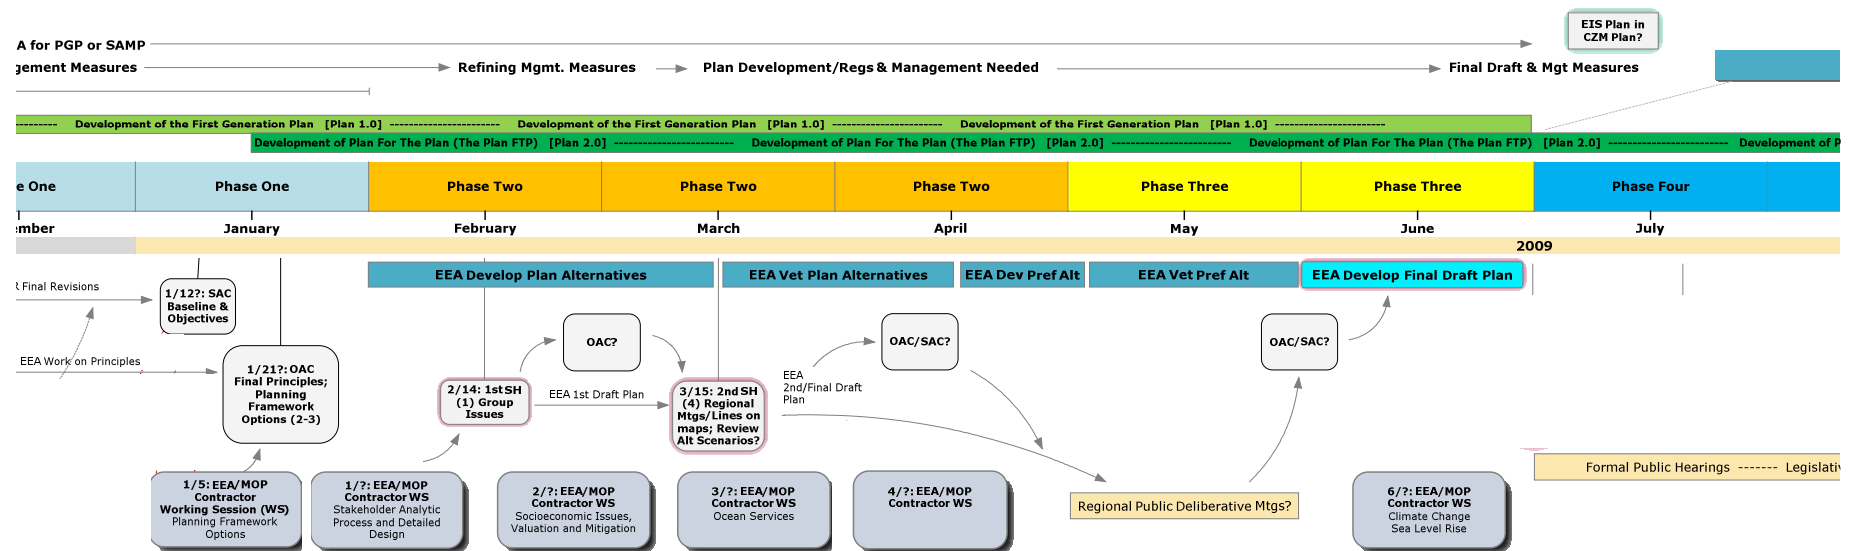

Review

Step 4

Formal Review

Launch

Step 2:

Assemble/overlay spatial data, identify conflicts/compatibilities and issues that need to be addressed

Present to stakeholders to illustrate what we're starting with

Develop rough draft plan alternatives [present to OAC]

Present to stakeholders

Refine to one rough draft working plan

Step 1

Step 2

Step 3

Step 4

Data; Input; Planning Framework

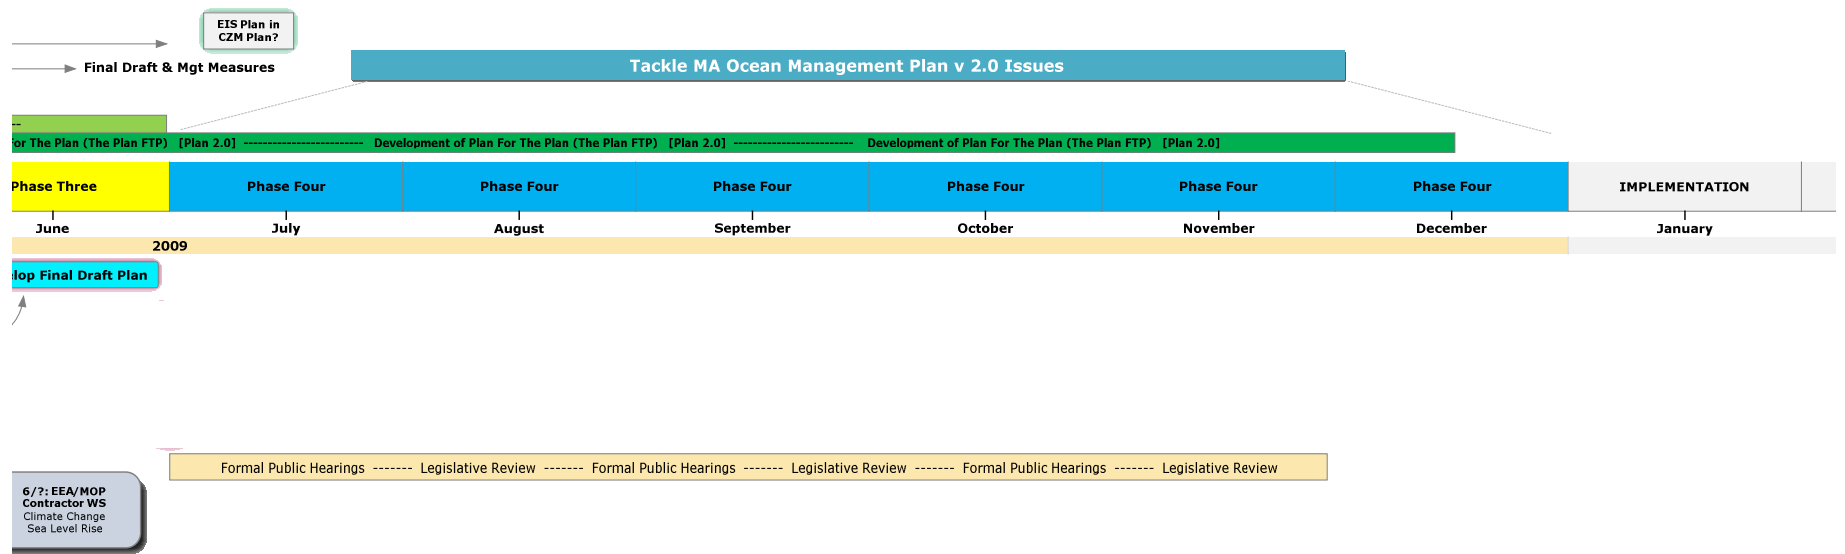

Draft Plans

Review

Formal Review

Launch

Step 3:

Present working draft plan to public for comment

Revise into final draft plan for public hearings/legislative review

Step 1

Data; Input; Planning Framework

Step 2

Draft Plans

Step 3

Review

Step 4

Formal Review
